CURRENT  
A Canadian Cancer Research Journal

**Supplemental Materials for**  
**A population-level comparison of cancer and non-cancer related healthcare costs using publicly available, provincial administrative data**  
D. Sam, W.Y. Cheung

**Listing of Supplemental Material(s):**

Supplemental Table 1: Breakdown of disease categories included from the Alberta Health Services Secondary Use Data Project (AHS SUDP).

**Supplemental Table 1.** Breakdown of disease categories included from the Alberta Health Services Secondary Use Data Project (AHS SUDP).

<b>Disease Category</b>	<b>AHS SUDP Categories</b>
Cancers	Bone malignancies Brain/central nervous system malignancies Breast malignancies Colon malignancies Ear, nose, and throat malignancies Esophageal malignancies Genitourinary malignancies Gynecological malignancies Hematological malignancies Liver malignancies Lung malignancies Pancreatic malignancies Prostate malignancies Skin malignancies Stomach malignancies Other malignancies
Hematologic cancers	Lymphomas (including Hodgkin's and non-Hodgkin's) Leukemias Myeloma Plasma protein malignancies
Solid tumours	All non-hematological cancers
Cardiovascular disease	Acute cardiovascular disorders Acute myocardial infarction Angina and ischemic heart disease Cardiac arrhythmias Cardiovascular device status and grafts Chronic cardiovascular diagnoses Congenital heart disease Congestive heart failure Coronary atherosclerosis Heart transplant status History of coronary artery bypass graft Hyperlipidemia Hypertension Other cardiovascular diagnoses
Diabetes mellitus	Diabetes Hypoglycemia
Musculoskeletal disease*	Acute and chronic joint diagnoses History of hip fracture Joint replacement Osteoarthritis Osteoporosis Other fractures Orthopedic device complications Pathological dislocation Pathological fractures and aseptic necrosis Rheumatoid arthritis Spinal disc disease

	Spinal fractures without spinal cord injury
Mental health conditions	Alcohol abuse Mental health diagnoses Stress and anxiety diagnoses Abuse Attention deficit/hyperactivity disorder Bipolar disorder Cocaine abuse Conduct disorder Depressive disorders Eating disorders Opioid abuse Schizophrenia Other psychiatric disorders Other significant drug use
Trauma	Abdominal trauma Cardiothoracic trauma Head and neck trauma Genitourinary trauma Lower limb trauma Nerve root and spinal plexus trauma Spinal cord trauma Other injuries excluding fractures

---

Excluded neurological, congenital, and connective tissue diseases.
